

T16 Evolution

Delivering 16,544 lumens, the T16 Evolution is re-engineered and re-designed for 2017/8 to provide more light, better range, and increased spread of light, with the peace of mind that the build quality has been even further enhanced to ensure trouble-free operation for well beyond the standard 5year warranty. At 684mm, the lamp is ideal for customers looking for a low profile off-road lighting solution that still manages to pack real punch, or for road customers looking for a full-size grille install that works off an independent switch.

HIGH PERFORMANCE LED DRIVING LAMPS

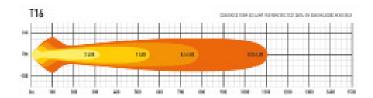

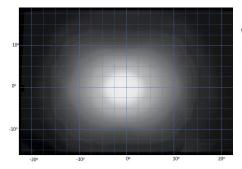

T16 EVOLUTION

- Seamless, low profile design facilitates installation
- Dynamic drive modulation optimises light output to maximise LED lifetime
- Ultra-reflective optics deliver 'Drive' beam pattern
- E-coat pre-treatment provides maximum corrosion resistance
- Lifetime guarantee on the 'Unbreakable' polycarbonate lens
